
ERICKSON ALMEIDA

WEB & DIGITAL SOLUTIONS PORTFOLIO

I have a background in Computer Science with international experience in web development and digital solutions.

ABOUT ME

I have developed websites and e-commerce platforms for businesses and individual clients, focusing on practical and user-friendly solutions.

My work includes projects for small businesses, online stores, and digital platforms.

I aim to create clear, modern, and effective digital experiences that support real business needs.

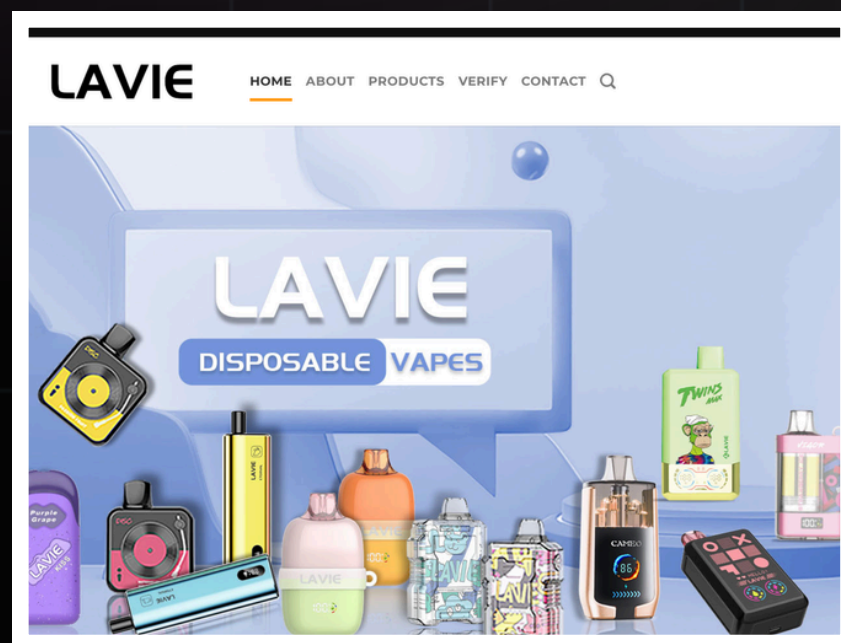

MY SKILLS

- Web Design & Development
- E-commerce & Online Stores
- Website Creation for Businesses/individuals
- SEO & Performance Optimization
- Digital Marketing Fundamentals

MY TOOLS

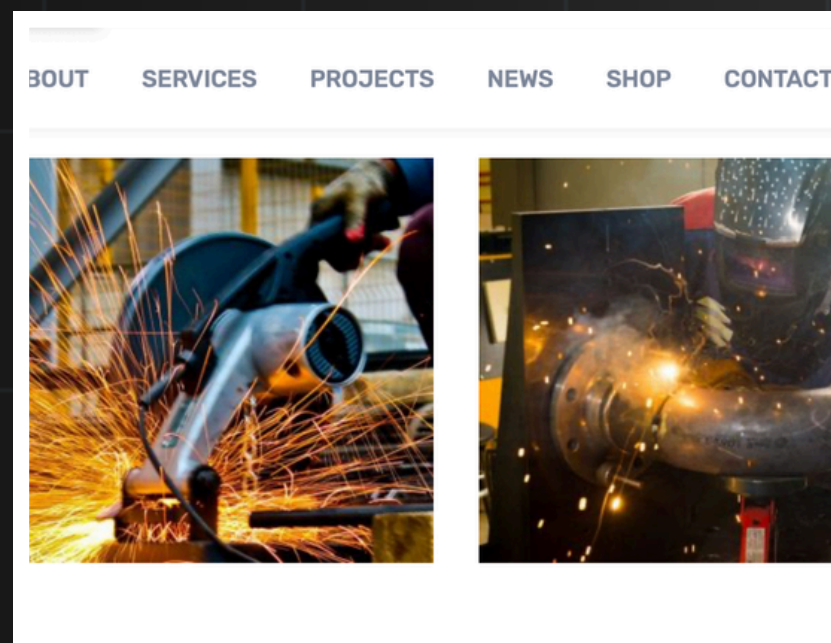

- **WordPress + Elementor**
- **Shopify**
- **FRONT END** HTML/CSS • JavaScript • React
- **BACK END** Node.js
- **DEPLOY** Vercel • Git
- **PERFORMANCE & SEO** PageSpeed Insights

MY PROJECT

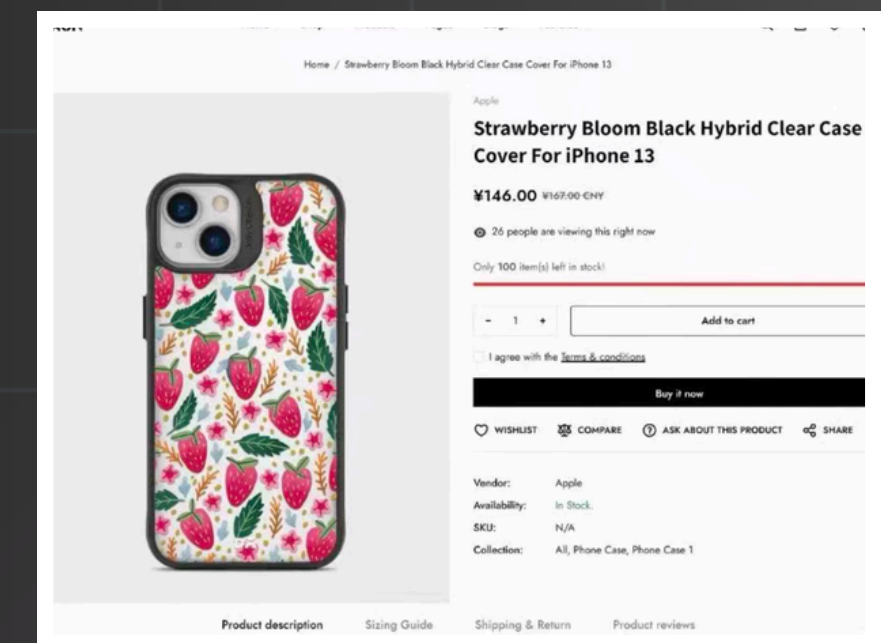

● LaVie Vape – Business Website

Developed a website for a vape company to support product visibility and online sales,

● Small Construction Business Website Redesign

Redesigned and improved a construction company website that was previously slow and poorly structured, delivering a faster, more modern, and user-friendly experience for one individual client.

● Shopify E-commerce Store

Designed and optimized a Shopify landing page, focusing on structure, product organization, and user experience.

GESTAVIA CASE STUDY

PROBLEM

The current website lacks clear structure, has outdated design, and does not effectively communicate services, resulting in poor user experience and low engagement.

ANALYSIS

Analysis using tools like Google PageSpeed Insights and Lighthouse revealed issues in performance, responsiveness, and SEO.

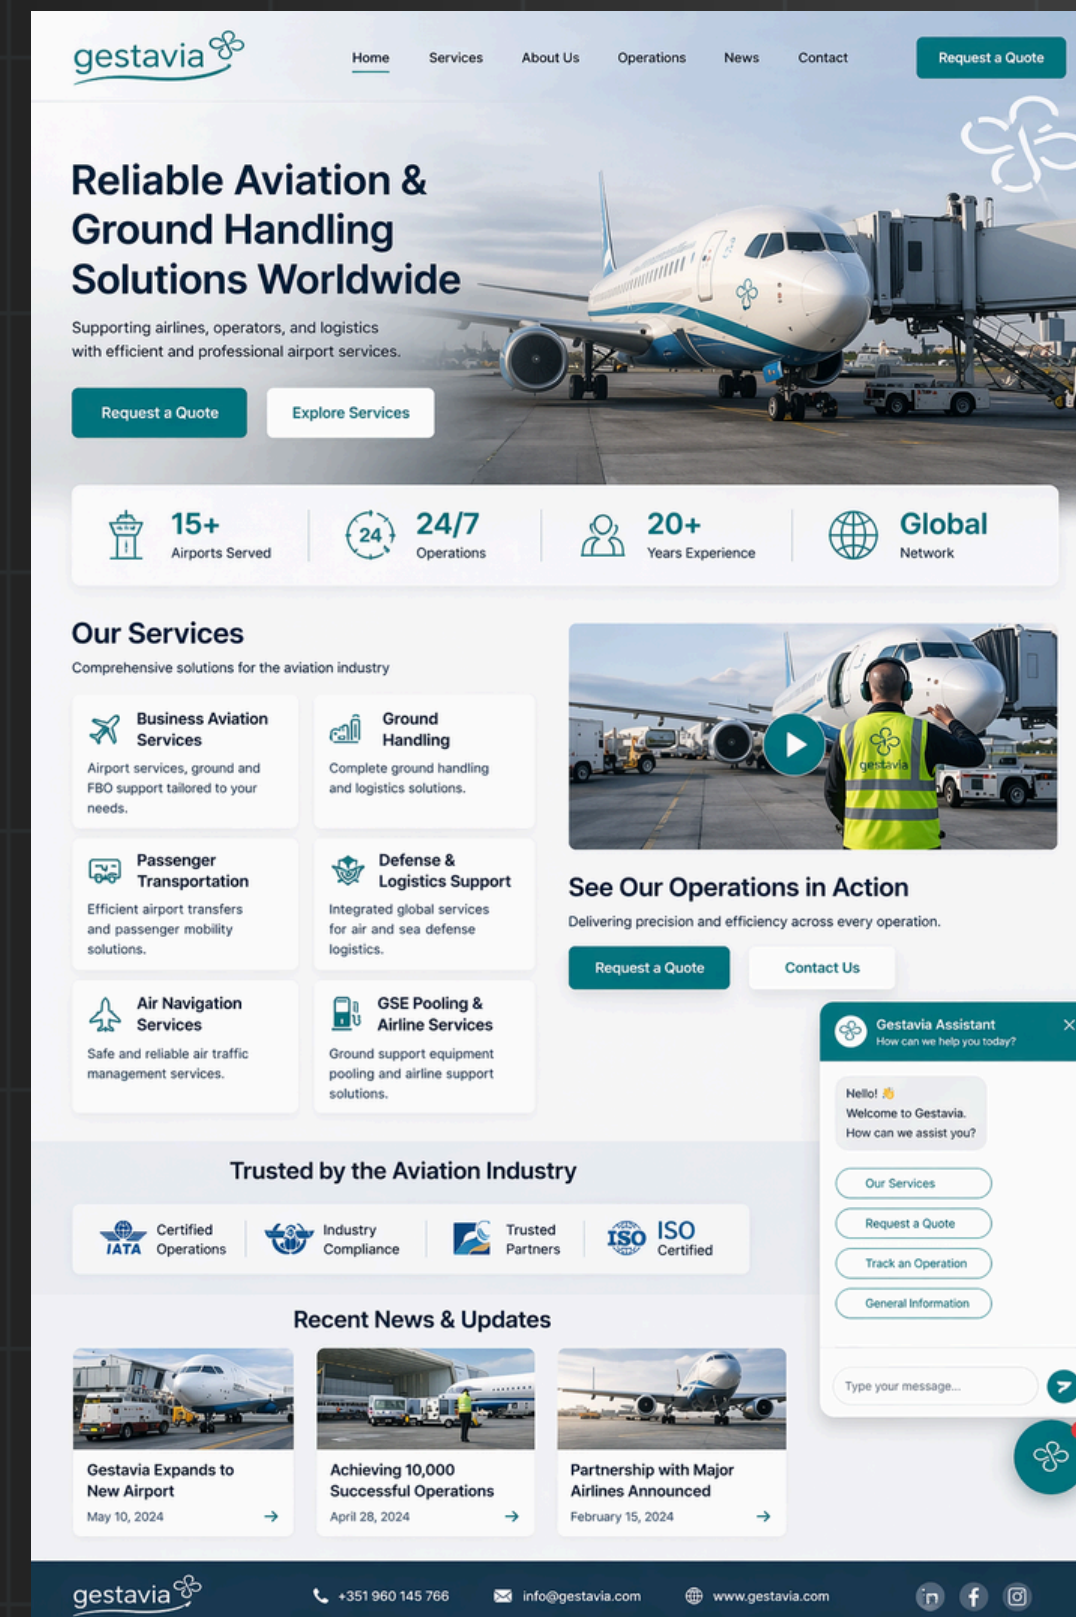

SOLUTION

A modern redesign focused on clarity, structure, and performance to improve user experience and better present services.

GESTAVIA CASE STUDY

KEY IMPROVEMENTS

- Clear and structured homepage layout
- Improved navigation and user flow
- Fully responsive design
- Strong call-to-action elements
- Better content organization
- Use of real visuals instead of generic images
- Performance and SEO optimization
- integration of an AI-powered chatbot to assist users

GESTAVIA CASE STUDY

I ALSO CREATED A VISUAL
PROTOTYPE TO DEMONSTRATE
LAYOUT, STRUCTURE, AND
USER FLOW.

You can also explore the interactive prototype here:
